

100-Point SEO Audit Checklist

Complete Website Audit Guide for Indian Businesses

Use this comprehensive checklist to audit any website's SEO performance. Each section includes actionable items you can check off as you complete them.

How to Use This Checklist:

- Go through each section systematically
- Check off items as you complete them
- Each item = 1 point (100 points total)
- Score 80+ = Excellent, 60-79 = Good, Below 60 = Needs Work

1. On-Page SEO Checklist (25 Points)

- **Title Tags Optimized:** Each page has unique, keyword-rich title (50-60 characters)
- **Meta Descriptions:** Compelling descriptions for all pages (150-160 characters)
- **H1 Tags:** One H1 per page with primary keyword included
- **H2-H6 Structure:** Logical heading hierarchy throughout content
- **URL Structure:** Clean, descriptive URLs with keywords (avoid numbers/symbols)
- **Keyword Placement:** Primary keyword in first 100 words of content
- **Keyword Density:** 1-2% keyword density (not stuffed)
- **LSI Keywords:** Related keywords naturally included in content
- **Content Length:** Minimum 1000 words for important pages
- **Content Quality:** Original, valuable content (not AI-generated spam)
- **Image Alt Text:** All images have descriptive alt text with keywords
- **Image File Names:** Descriptive file names (e.g., mumbai-seo-services.jpg)
- **Image Compression:** All images optimized (under 100KB when possible)
- **Internal Links:** 3-5 relevant internal links per page
- **External Links:** 2-3 authoritative external links per page
- **Anchor Text:** Descriptive anchor text (not 'click here')
- **Broken Links:** No 404 errors or broken internal/external links
- **Content Freshness:** Recently updated (within last 6 months)
- **Readability:** Easy to read (Flesch score 60+)
- **Mobile Formatting:** Content readable on mobile devices
- **CTA Buttons:** Clear call-to-action on every page
- **Contact Info:** Easy to find contact information
- **Social Sharing:** Social media share buttons present
- **Schema Markup:** Relevant schema for page type (Article, Product, etc.)
- **Content Updates:** Date stamps showing content freshness

2. Technical SEO Checklist (25 Points)

- **HTTPS Enabled:** SSL certificate installed (secure padlock in browser)
- **Mobile-Friendly:** Passes Google Mobile-Friendly Test
- **Page Speed:** Loads in under 3 seconds (test with PageSpeed Insights)
- **Core Web Vitals:** Green scores for LCP, FID, CLS
- **XML Sitemap:** Sitemap.xml exists and submitted to Google Search Console
- **Robots.txt:** Properly configured robots.txt file
- **Canonical Tags:** Canonical tags prevent duplicate content issues
- **404 Page:** Custom 404 page with helpful navigation
- **Site Architecture:** Max 3 clicks to reach any page
- **Breadcrumbs:** Breadcrumb navigation implemented
- **Pagination:** Properly implemented rel='next' and rel='prev' tags
- **Redirects:** 301 redirects for old URLs (no 302s)
- **No Redirect Chains:** URLs redirect only once
- **Image Lazy Loading:** Lazy loading enabled for images
- **Browser Caching:** Cache headers configured (check GTmetrix)
- **Gzip Compression:** Text files compressed with Gzip
- **CDN Usage:** Content Delivery Network for faster loading
- **Minified CSS/JS:** CSS and JavaScript files minified
- **Structured Data:** JSON-LD structured data validated
- **AMP Pages:** AMP version for blog posts (optional but helpful)
- **Hreflang Tags:** If multi-language, proper hreflang implementation
- **JavaScript SEO:** Content visible with JavaScript disabled
- **Server Response:** 200 status codes for all important pages
- **Log File Analysis:** Regular server log analysis for crawl errors
- **Uptime Monitoring:** Site monitored for downtime (99%+ uptime)

3. Off-Page SEO Checklist (25 Points)

- **Backlink Profile:** 10+ quality backlinks from relevant sites
- **Domain Authority:** Domain Authority 20+ (check Moz/Ahrefs)
- **No Toxic Links:** Disavowed any spammy or toxic backlinks
- **Link Diversity:** Links from various domains (not just one source)
- **Anchor Text Variety:** Mix of branded, exact match, and generic anchors
- **DoFollow Links:** Majority of links are DoFollow
- **Guest Posting:** Guest posts on 3+ relevant blogs
- **Directory Listings:** Listed in JustDial, Sulekha, IndiaMART
- **Social Profiles:** Active profiles on Facebook, LinkedIn, Twitter
- **Social Signals:** Regular social media posts with engagement
- **Google My Business:** Verified and optimized GMB profile
- **NAP Consistency:** Same Name/Address/Phone across all platforms
- **Local Citations:** Listed in 10+ local directories
- **Customer Reviews:** 10+ positive Google reviews
- **Review Responses:** Responded to all reviews (positive and negative)
- **Brand Mentions:** Unlinked brand mentions (monitor with Google Alerts)
- **Competitor Backlinks:** Analyzed and targeted competitor backlink sources
- **Resource Pages:** Links from resource/tools pages
- **Industry Forums:** Active participation in relevant forums
- **Q&A; Sites:** Helpful answers on Quora, Reddit with links
- **Press Releases:** At least one press release distributed
- **Influencer Outreach:** Collaborated with micro-influencers
- **Podcast/Video:** Featured on podcasts or YouTube videos
- **Testimonials:** Given testimonials to tools/services you use
- **Link Building Strategy:** Documented ongoing link building plan

4. Local SEO Checklist (25 Points)

- **GMB Claimed:** Google My Business profile claimed and verified
- **GMB Complete:** 100% profile completion (all fields filled)
- **GMB Category:** Correct primary and additional categories selected
- **GMB Description:** Keyword-rich 750-character description
- **Business Hours:** Accurate hours, updated for holidays
- **GMB Photos:** 20+ high-quality photos uploaded
- **Cover Photo:** Professional cover photo showcasing business
- **Logo:** High-resolution logo uploaded
- **Services Listed:** All services/products listed in GMB
- **Attributes:** All relevant attributes selected
- **Q&A; Section:** 5+ questions answered in Q&A;
- **Google Posts:** Weekly Google Posts about offers/updates
- **Booking Button:** Booking/appointment button enabled
- **Local Keywords:** City/area names in title tags and content
- **Location Pages:** Separate pages for each service area
- **Local Schema:** LocalBusiness schema markup implemented
- **NAP on Website:** Name, Address, Phone in footer of every page
- **Google Maps Embed:** Google Maps embedded on contact page
- **Service Area:** Service area clearly defined on website
- **Local Content:** Blog posts about local events/news
- **Bing Places:** Claimed and optimized Bing Places listing
- **Apple Maps:** Business listed on Apple Maps
- **Local Backlinks:** Links from local news sites/blogs
- **Chamber of Commerce:** Listed in local chamber directory
- **Local Sponsorships:** Sponsor local events for backlinks/visibility

■ How to Calculate Your Score

Score Range	Grade	Action Needed
90-100 points	Excellent	Maintain and monitor
80-89 points	Very Good	Minor improvements
70-79 points	Good	Focus on weak areas
60-69 points	Fair	Significant improvements needed
Below 60	Needs Work	Major SEO overhaul required

Next Steps:

1. Work through each section systematically
2. Focus on high-impact items first (Technical SEO is foundation)
3. Re-audit every 3 months to maintain SEO health
